## PROFILE

---

I am currently a dedicated student at NIT, where I am honing my skills and knowledge in the realm of technology. My primary focus lies in programming, and I specialise in web technologies such as HTML, CSS, JavaScript, React, MongoDB, NodeJS, Express, and SQL.

My goal is to secure a position as a Full Stack Developer, combining my passion for both frontend and backend technologies. I thrive in dynamic and collaborative environments, where I can contribute to innovative projects and continuously enhance my skill set.

## KEY SKILLS

---

- Good communication skills
- HTML, CSS, JavaScript, jQuery
- Node, Express, EJS
- Git & GitHub
- WordPress
- API, RESTAPI
- SQL, PostgreSQL
- React

## QUALIFICATIONS

---

### Diploma of Web Development

NIT, Perth, Australia

Sep 2024

### Master of Computer Science

DCSA, India

April 2022

### Bachelor of Computer Science

IIHS, India

June 2020

## EMPLOYMENT HISTORY

---

### Web Developer [Nirvana Solutions India Pvt Ltd, India]

Feb 2022-March 2023

Worked as a productive and positive team member to design, code, test, report, and debug operations. Helped to achieve a consistent look and visual theme across the website.

#### Key Responsibilities:

- Work with development teams and product managers to ideate software solutions.
- Design client-side and server-side architecture.
- Build the front-end of applications through appealing visual design.
- Develop and manage well-functioning databases and applications.

- Build features and applications with a mobile responsive design.

### Key Achievements:

- Redesign a client's websites resulting in a modern, responsive design that improves user engagement and reduce bounce rates by 30%.
- Developed a custom e-commerce platform for a client that increased online sales by 40% and streamlined the client's business operations.
- Maintained strong client relationships by delivering high-quality projects on time and within budget.

## PROJECTS

---

### YouTube Clone:

- Developed a YouTube clone utilizing React.js framework along with core web technologies including JavaScript, API, Material UI, CSS, and HTML. This project aimed to replicate the essential functionalities of the YouTube platform. Leveraged JavaScript for interactivity and dynamic content generation, while Material UI, CSS and HTML were utilized for styling and structuring the user interface. Employed modern development practices to ensure cross-browser compatibility and responsiveness across various devices.

### Hotel Website:

- Designed and developed a responsive hotel website using HTML, CSS, and JavaScript to provide an intuitive and visually appealing user experience across devices. Implemented modern web design principles and responsive techniques to ensure seamless navigation and optimal viewing on various screen sizes. Utilized HTML for structuring the website layout and incorporating interactive elements. Styled the website using CSS to enhance visual aesthetics and create a cohesive brand identity.
